

Summary: Short-Lived Bugs

error in tests string due to server without crash in default
regression move file with ice help
files cause on causes search
update fix fails to build data changes
test wrong properties icon instead of bug project
type new change link java open compiler error
dialog editor invalid needs folder make wine
crash menu org eclipse internal compiler
add page image broken message compiler error
file instead of java open make wine
text class org eclipse internal compiler
regression application windows errors
remove function name application windows errors
missing list table crashes on display
when using content
window support problem document
incorrect doesn't work view patch fails
user instead of

Summary: Long-Liv

The image is a word cloud centered around the word "failure". The word "failure" is the largest and most prominent word in the center. Other large words include "internal", "files", "file", "crashes", and "missing". The words are in various colors (purple, orange, yellow, green) and sizes, representing their frequency or importance in the context of the word cloud.
